Heartland West CWMU Description:

The Heartland West CWMU is located northwest of Manti, Utah on the San Pitch Mountains. Big Baldy at 8700 feet is the high point of the Unit. From Big Baldy the elevation decreases to 8100 feet in the north and in the south. From the east to the west Chriss Creek and Chriss Canyon cut this Unit. Chriss Creek ranges from 7800 feet in the east to 5600 feet in the west where it exits the Unit. Part of Little Salt Creek forms the north border ranging from 8000 to 6800 feet, east to west. In the south there are several creeks that cut the Unit in a north to south direction. On the west there is Maple Creek that ranges from 6300 feet to 7600 feet. In the middle is Maple Canyon ranging from 6900 feet to 7800 feet; and finally, on the east Timber Canyon ranging from 7300 feet to 8000 feet.

On the Heartland West Cooperative Wildlife Management Unit (CWMU) Rocky Mountain Gambel Oak-Mixed Montane Shrubland (41) is the dominant land cover type. The second most dominant land cover is Colorado Plateau Pinyon-Juniper Woodland (36). Inter-Mountain Basins Montane Sagebrush Steppe (62), Rocky Mountain Aspen Forest and Woodland (22), and Rocky Mountain Montane Dry-Mesic Mixed Conifer Forest and Woodland (30) all occur in large patches in the middle and east parts of the Unit.
